### My Profile

A Senior Web Developer, skilled in developing web applications using Node.js, Cognito, Lambda, Express.js, PHP, Shopify, WordPress, and a suite of JavaScript frameworks (React.js, Vue.js, and AngularJS). Proficient in managing database operations using MongoDB, MySQL, and PostgreSQL and maintaining applications using BigCommerce, Heroku, and Github.

### Work Experience

**BITZ DIGITAL** | New Jersey

Oct 2020 - Present

#### Full Stack Web Developer

At Bitz Digital, I contributed as a full stack web developer, working on diverse projects that polished my expertise in web development. My role included utilizing frameworks such as React, Angular, and Vue.js to develop innovative and efficient web solutions.

- Developed software with class-based and functional components for web applications.
- Collaborated with cross-functional teams to ensure successful project delivery.
- Performed efficient troubleshooting and debugging of complex software applications.
- Designed and implemented RESTful APIs for enhanced web connectivity.
- Demonstrated proficiency in working with both relational and non-relational databases.
- Specialized in Node.js development for scalable back-end solutions.
- Utilized cloud hosting services for deploying industry-level web projects.
- Skilled in basic SCRUM methodologies and effective ticket creation.
- Managed third-party integrations to enhance project functionality and performance.
- Experienced in using Laravel templating techniques for dynamic web content.

#### Build Tools

#### Design

## Education

### SETON HALL UNIVERSITY

**B.S. in Computer Science**

New Jersey

### VOFOX SOLUTIONS | New Jersey

Feb 2015 - Sept 2020

#### Senior Wordpress Developer

At Vofox Solutions, a leader in innovative web design, I served as a senior WordPress developer. I focused on creating engaging websites using WordPress and Shopify for robust e-commerce projects.

- Developed HTML email templates, ensuring compatibility across various email clients.
- Prepared and delivered email templates using third-party vendors and web tools.
- Performed monthly website maintenance, updating web assets for optimal stability.
- Actively participated in SCRUM sprint planning and story grooming sessions.
- Managed application deployment and version control using Git platforms.
- Specialized in creating websites using Elementor Pro and Divi Builder.
- Expertise in plugin development, integration, and custom functionality enhancements.
- Built and maintained high-traffic eCommerce sites with Shopify and WooCommerce.
- Proficient in using CodeIgniter, Drupal, YiiFramework, and Bootstrap integration.

### SEVEN | New Jersey

2013 - 2015

#### UI & UX Designer

Seven excels at creating innovative digital solutions for a global audience. As a senior WordPress developer, I designed and developed engaging web pages, utilizing HTML5, CSS3, Ajax, Bootstrap, PHP, and jQuery, all aligned with W3C and Web standards.

- Designed user interfaces using Adobe XD, Photoshop, and Figma for optimal design.
- Developed responsive web layouts for seamless user experience on multiple devices.
- Ensured consistent user experience with adaptable layouts for varying screen sizes.
- Created custom static web pages leveraging HTML and CSS for accurate designs.
- Implemented responsive design using advanced HTML, Sass, and CSS techniques.
- Developed standards-based and responsive web content for optimal usability.
- Enhanced website performance through on-page SEO and speed optimization.
